

IPsec VPN Technical Security Report

1. Analysis Summary

Capture ID	001
Security Score	100 / 100
Risk Level	LOW

2. VPN Security Configuration

Parameter	Value
Encryption	AES-256
Perfect Forward Secrecy	True
Diffie-Hellman Group	14
Key Lifetime	28800
Replay Protection	True
Metadata Exposure	False

3. Traffic Analysis

Feature	Value
Packet Count	10250
Average Packet Size	1240
Flow Duration	45.2

4. AI Traffic Classification

Prediction	Video
Confidence	0.91

5. Detailed Security Findings

Parameter	Status	Details
Encryption	GOOD	AES-256 strong encryption is being used.
PFS	GOOD	Perfect Forward Secrecy is enabled.
DH Group	GOOD	DH Group 14 provides an acceptable key exchange strength.

Key Lifetime	GOOD	Key lifetime is 28800 seconds.
Replay Protection	GOOD	Replay protection is enabled.
Metadata Exposure	GOOD	No significant metadata exposure detected.

6. Security Recommendations

No major security recommendations.
